District V

Michael C. Ryans  
Executive Secretary

**Bid No. HCS-CB-2024-1**  
**Student Chromebook Devices RFP**  
**Questions & Answers Document #2**  
**March 14, 2024**

The following questions and or/requests have been submitted by vendors regarding Hale County School System's Student Chromebook Devices RFP, Bid No. HCS-CB-2024-1 (responses are noted in red font):

1. Are you looking for white glove services on this RFP?

**No, our tech support staff will download the Chrome license onto each device.**

2. In lieu of negotiating new contract terms, would Hale County School District accept a bid that leverages an existing contract with the District, Dell Midwestern Higher Education Compact (MHEC), or an established consortium or other statewide agreement?

**We plan to use federal funds to purchase the chromebooks. Due to federal procurement regulations, we are required to solicit our own bid for purchases of materials, supplies and equipment that will exceed \$250,000 if federal funds will be used for the purchase. Therefore, no state bid, consortium, or joint purchasing contract may be utilized for this purchase.**
